Tell us what you would do next to check the credibility of the above articles.

- ☐ I would read the full article.
- ☒ I would check the source.
- ☒ I would find corroboration from other credible sources.

What are the benefits and drawbacks of getting news on social media?

It can be fake. The information may not come from a reliable source.

Why is it important to evaluate the information you see on social media?

It is important because you don't want to be misinformed. If you are misinformed, you may vote for someone who isn't very nice.

What would you do in the future on real social media sites to make sure that the information you see is credible?

I will never get my information from social media. If I do, I will check the information with other sources.
